ABOUT THE PROGRAM

Artificial Intelligence (AI) is rapidly transforming the way we learn, work, and solve problems. To help students understand and effectively utilize AI tools, the DYFI Keralam is launching "Hello 2 AI", an introductory workshop designed for school students aged 10-15 years.

The campaign aims to introduce students to AI in a simple, practical, and responsible manner, enabling them to use AI tools for learning, creativity, skill development, and future career readiness.

OBJECTIVES

Introduce students to the fundamentals of Artificial Intelligence

Demonstrate useful AI tools for education and learning

Encourage responsible and ethical use of AI

Create awareness about future career opportunities in an AI-driven world

Inspire curiosity, innovation, and problem-solving among students
